

TRANSITION WORK GROUP

FUTURE OBJECTIVES:

At our October 2007 meeting the subcommittee met to determine its goals for FY 08. It was decided that we would continue to inform, educate and empower students, parents, faculty and service providers. This will be done by conducting two information sessions for 2 regions of the School District of Philadelphia, establishing relationships with all High School special education liaisons, working with the local transition task force to disseminate information and provide training, going into specific schools to discuss vision 2010, benefits of having students work in the community and what tools the students should be given prior to graduation and developing, with the support coordination work group, a standard training for all.

For information on getting involved with this subcommittee contact,
